PRODUCT QUALITY

- We are providing 100% Pinewood Door with Double Core Layer and face on surface, also Laminate or Veneers Pressing by Hydraulic Press so client get better result on Door.
- We use standard quality hinges and other hardware materials. These are ready to use doors which can be easily placed with minimal endeavor.
- To manufacture these doors, we use chosen and well seasoned imported pine wood timber that are tested by permanent preservatives.
- The core of the doors is framed with seasoned wood and is made it robust by a layer of cross bands. It makes the Flush Doors resistance against borer, termite and dimensionally stable in natural cyclic changes.

OUR INFRASTRUCTURE

- We have fully equipped with latest technology facilities and ample resources.
- A highly sophisticated production facility is developed to conduct the production operation at a large scale and in a defect-free manner.
- Our warehouse easily accommodates all our manufactured products and stores them all in a systematic order.
- We have a designing unit which creates stylish and high utility designs for our entire product range.

OUR CLIENTELE

Our Client strength has been the key success to our growth. We have a Long-term association with all our clients and most of the new clients are referred by our existing clients.
